To Whom It May Concern:

Subject: Recommendation for Rhonda Skiba

I am pleased to write a letter of recommendation for Rhonda Skiba. I met Rhonda several years ago and have known her through the work she does as well as on a personal level. Through my teaching position at Georgian College, I have often worked with students pursuing self-employment. I have come to know some of the qualities that promote success, and I believe that Rhonda possesses those qualities: Perseverance, integrity and a sense of humour.

Rhonda has worked hard to realize her dream of having her own business. I have watched her business venture grow from an idea to an actual service of helping others. I think what I admire most is her ability to take an idea, talk it through with people involved in similar services and then slowly build a very sound business plan. *Life's a Trip!* not only provides a service to help others, but it is open to hearing ideas and incorporating those ideas into an evolving business. Rhonda has persevered in the early growth stages of her business and ensured that the business contains the elements that foster credibility and confidence in the company.

Rhonda has a strong work ethic. She is passionate about helping others at an affordable price that promotes a win-win for both the company and the client. In her personal relationships and in her work relationships, Rhonda possesses an integrity that fosters trust. Her enthusiasm to deliver the best service possible for her clients has helped her business to grow.

Probably one of Rhonda's most endearing characteristics is her sense of humour. Rhonda has the ability to laugh at herself and to draw people into a spirit of laughter. Her ability to share her joy of living has been an inspiration to many. She is fun to be with!

I strongly recommend Rhonda and her company *Life's a Trip!* Her welcoming smile and her commitment to helping others makes her an asset in any setting. It has been a privilege to know and work with Rhonda; I wish her every success in her future endeavours.

Sincerely,

Susan J. Stott-Hood, B.Sc., M.A., D.S.D
